

**Item P25-0223**

**Dustie® Dust Collection Shroud for Hand Grinders**

Fast and easy to install with Flex-Flange™ (included). Fits most hand grinders, and offers adjustable height for different grinding/sanding wheels. Captures 99% of airborne dust. Designed to capture extra fine dust from grinding, sanding, and cutting concrete, masonry, fiberglass and other materials. Protects workers from harmful Silicosis and Hexavalent Chromium. Meets EPA regulations for lead paint renovation work.

The Dustless Technologies Dustie meets OSHA guidelines and improves worker health and safety. Designed to be used with the Dustless Wet Dry Vacuum for effective dust control, the Dustie keeps particles from escaping, and the vacuum keeps dust contained. Simply attach the vacuum hose to the Dustie, and you won't have to worry about leaving a film or cleaning up messes. The Dustie's innovative design keeps your work environment clean and safe. If you use your grinder for tuck pointing, crack chasing, or decorative concrete cutting, you will want to use the optional cover plate. Trim a section off the front edge of the Dustie and snap the cover plate into place. You can choose two different operation angles from the molded cut lines in the Dustie **Includes: (1) shroud, (1) Flex-Flange™ banding clamp, (3) washers, and (1) releasable zip tie.**
