

Item P10-1865

Fiberglass Step Ladder - Type 1 (375 lb.)

Fiberglass Step Ladder has a duty rating of 375lb and features heavy duty aluminum HolsterTop®. With a full set of horizontals and heavy-duty internal spreaders, these ladders are built for the long haul. The molded external rail shields and the EDGE® bracing system help decrease damage to the rails. The slip-resistant Traction-Tred® steps are single riveted and have extra wide knee braces. Fiberglass rails are non-conductive for working near electricity. Meets or exceeds the safety standards set by ANSI and OSHA.
