

Item P12-1201

GFCI Five Outlet Adapter

Converts any standard duplex outlet into five GFCI and single mode surge protected NEMA 5-15R receptacles. Offers both portability and stationary protection to any appliance or tool plugged into it. The unit comes with a permanent mounting screw and a pilfer resistant mounting plug. This plug-in-portable is equipped with a retractable ground pin, allowing use in 2 or 3 wire circuits. Manual reset is required after trip and power outage to prevent unmonitored equipment startup. Size: 3.18"(W) x 5"(H). **Rated for indoor use only.**
