

Item P12-1206

GFCI Power Cords - Triple Tap

Insures GFCI protection when using extension cords, while providing a cost savings compared to purchasing the cords and GFCI's separately. 12/3 AWG SJTW, indoor outdoor heavy duty cord is rainproof rated. Triple tap (3 way block) female receptable. An automatic reset feature allows the GFCI to automatically reset after interruption of primary power. Manual reset is required after a ground fault occurrence.
