

Item P14-2489

Guardian HLT Horizontal Lifeline

Guardian's HTL lightweight rope horizontal lifeline solutions excel in applications when you need a quick setup and tear down with a minimal of fuss. Feature a built-in tensioner for easy one-person installation and error-free sag adjustment - just attach the double-locking carabiners to compatible anchorage connectors, turn the tensioner until it slips, connect your lanyard and get to work. HTL horizontal lifelines accommodate **up to two workers** in Fall Arrest or Fall Restraint, HTLs come fully assembled with tensioner, (2) 2.5" o-rings, (2) 6' cross arm straps, (2) carabiners, and carrying bag.
