Milwaukee USB Rechargeable 700L Flashlight

The Milwaukee® USB Rechargeable 700L Flashlight delivers 700 lumens of TRUEVIEW™ High Definition output, and is capable of all-day runtime, over 2,000 recharges and 3X faster charging via USB. Waterproof and dust proof, this flashlight can withstand submersion up to 1M and the toughest conditions on and off the jobsite. A sliding head lets users adjust their beam pattern from spot to flood with up to 155 meter beam distance. The light includes High, Low and Strobe output modes and up-to 16 hours of runtime. The REDLITHIUM™ USB Battery can be recharged in the light via Micro USB or swapped out with additional REDLITHIUM™ USB Batteries for virtually no downtime.
