

Item P10-9175

Milwaukee® Headlamp

Compact for all day comfort and delivers 350 lumens of TRUEVIEW™ High Definition output in a wide flood beam. The Milwaukee LED headlamp is optimized to be lightweight and compact with a strap made from a washable, sweat absorbing micro-fiber, giving you all-day comfort when worn on the forehead. Impact-resistant housing is built to withstand the toughest conditions. It survives drops and is IP54 rated for water and dust resistance. Direct light by pivoting the light head in 7 different tilt positions. 3 Light output modes to manage brightness and runtime, giving you up to 28 hours of runtime. Includes four clips for secure attachment to hard hats while you are on the jobsite. (2) AAA batteries included.
