Item P14-0887

Ram Board™ Temporary Floor Protection

Made of a thick, tough Flex-Fiber reinforced material. This item protects new and existing floors over a very large area in minutes. It protects new floors by allowing moisture and vapors to escape for curing. Lays flat, is non-staining and reusable. Won't damage or mar floors even when driving a tow motor or operating other heavy equipment during any type of construction activity. Protects floors such as wood, tile, marble, linoleum, concrete and stone. .05" thick. 16 rolls per pallet.
