

**Item P12-4067**  
**Smith Gas Axe™ Extra Heavy Duty Demolition Torches**

Ideal for scrap and demolition cutting. Designed for heavy-duty severe applications. Works with all gases, Oxy/Acetylene, propane, natural gas or MAPP® gas. Extra high capacity cuts to 24" with Acetylene, and 20" with propane. Any cutting tip used with the SC series or DG series torches will work on this unit. Manganese bronze head reduces heat warping and damage. Unique 3-tube stainless steel construction keeps gases separate, eliminating mixing tube burnout. Reversible, ergonomic cutting lever (top or bottom mount). Slip-in cutting tips with Graf-Tite® seat material maintains positive seating (no wrenches necessary). Ease on cutting oxygen, replaceable hose connections. 1 year limited warranty. For Oxy/Acetylene cutting use SC12 and SC56 series cutting tips.
