Item P12-4076

Smith High Volume Torch Handle

Rugged torch handle for high volume heating tips and general purpose welding, brazing and cutting. Rugged silver brazed construction, forged brass butt, solid brass seat, and fluted easy grip handle. Needle valves are ball type for easy, accurate flame control; guards against uneven valve wear. Has teflon packing for excellent flow control. Replaceable inlet connections fit "B" size hose nuts, 9/16"-18 right or left hand. Covered by Smith's LIFETIME Warranty & Service Agreement. Cuts up to 8", welds up to 1".
