

Item P21-0059

**STS (Strut-to-Strut) Clamp**

A quick and easy way to transform strut channel (**must be slotted strut**) into back-to-back strut. Provides an alternative to welded strut. Eliminates the need for bolts, washers and nuts. Easily installs in seconds with a 1/2" nut driver. **Designed to be used with slotted strut channel with holes 7/8" long x 9/16" wide.**
