

Item P12-4158

Versa-Torch™ Acetylene Refrigeration/Air Conditioning Outfit

This Versa-torch Outfit features a lightweight nickel plated torch handle and the AC309 90° standard duty cutting attachment backed by Smith's exclusive "LIFETIME" Warranty and Service agreement. This lightweight system has a cutting capacity of up to 3" and offers the same durable construction and built-in safety features as the heavier duty torches. A broad selection of cutting, welding and specialty attachments makes this system ideal for manufacturing, maintenance and repair, air conditioning, refrigeration, plumbing, metal fabrication and hundreds of other applications. Supplied complete with a high density rugged and lightweight polyethylene carrier, goggles, tank wrench, heating, cutting, and brazing tips, cutting attachment, torch handle, twin hose assembly, regulators and tanks. Uses MC Series Cutting tips and LT series Brazing tips. Torch Length: 8 1/2" Handle Length: 5 3/4"
