

Item P14-2491
Werner 2-Man Rope Horizontal Lifeline System, Cross-Arm Strap, Ratchet Tensioner

Werner Temporary Rope Horizontal Lifeline systems provide a complete HLL system in a convenient backpack. The 2-Man Temporary Rope Horizontal Lifeline is a kernmantle synthetic rope lifeline equipped with rope adjustment, tensioner and snap hook end connection for quick and easy installation. The inline energy absorber ensures consistent safety performance in the event of a fall. Up to **2 users** can connect to the provided O-rings with a self-retracting lifeline or shock absorbing lanyard. Lifeline tension can be achieved with the included ratchet tensioner with built-in tension limiter.
