

Item P14-9072
Werner Blue Armor Standard (Back D-Ring) Harness

Blue Armor Standard Harness with Back D-Ring features Relief Handles to achieve the Gravity Override position and help reduce the potential hazards of suspension trauma, WebAlert™ inspectable webbing and impact indicators, 5-point adjustments for optimal fit, lightweight hardware and pads, and bright colors for worker visibility on the jobsite. The rear dorsal D-ring is made from high quality forged alloy steel for strength and durability. Slotted pass-through buckle on the chest strap and tongue buckle leg straps are simple, fast, easy, and ideal when more than one worker could use the same harness.
