

## Item P10-1249

### Bosch Heavy-Duty Demolition Hammer

Bosch's hardest hitting, heaviest duty SDS-max demolition hammer. Vario-Lock enables operator to rotate and lock the chisel in 12 different positions to optimize the working angle. Variable speed control dial enables operator to handle delicate chiseling jobs without damaging brittle material, such as tile and brick. Push to strike design, with large on/off button. Service reminder light indicates need for service 8 hours in advance of automatic predetermined tool shutdown. Padded, shock absorbing handles are comfortable to hold, improve grip and reduce operator fatigue. Heat shield over barrel for comfortable operation. **Includes 360° handle and carrying case.**
